

We the release of Fitware Version 2.0.25 we have done some work with the menu structure on the Club level.

1. Upon log in to a club you will now be taken to the Customer Search screen. YogaFit and 9Round clubs will be taken to the Customer Check In screen.
2. The Home button has now been replaced with the Dashboard Menu Item. This is now wrapped with permissions that can be edited on the Edit Club Profile option on the OE tier. And can be added during new profile creation.

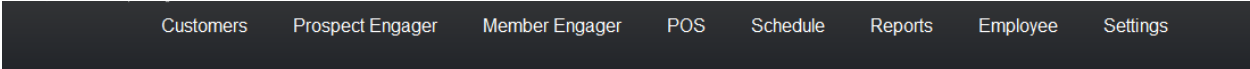

The screenshot shows the 'Add Profile' form. At the top, there's a header with a user icon and the text 'Add Profile'. Below the header, there's a 'View All Profile' button. The form fields are: Profile Name (New Club Profile), Profile Type (Ownership entity profile, Club profile), Club (Select), and Active (checked). Below these is an 'Access Level' tree with various permissions like Edit Tax Club, Product, Add Product, Edit Product, Delete Product, View Product, Reports Club, Change Password Club, Get Payment Club, Statement, View Other Employee PT Sessions, Edit Regular Availability, View Regular Availability, and club Dashboard. There are 'Save' and 'Cancel' buttons at the bottom right.

3. YogaFit and 9round clubs now access the Customer Check In screen via the customers drop down menu

4. Other menu items have been moved around for better usability.
