

## F118: Basic Employee Functions

(Covers setting staff hours, working with the employee time clock, and viewing employee sales and commissions reports.)

1. Setting Staff Hours
2. Time Clock
3. Sales and Commission Reports

### Setting Staff Hours

Setting the staff hours that employees normally work will help to keep schedules straight.

It also helps when scheduling employees as Fit Pros to service sessions - if a session is accidentally scheduled outside of an employee's normal working hours, the system produces a warning message.

1. Select **Employee > View All**, then click on the employee's name; this takes you to their record.
2. Click on the **Staff Hours** icon in the Relate Bar:

3. You will receive a screen allowing you to set working hours for each day of the week:
